# GW Context — PTA (nHz) to LISA (mHz-Hz)

Model curve (broken power law) shown with official PTA spectrum; LISA band shown schematically for orientation.

GW Context — PTA & LISA

Legend:
- Model (broken power law, MAP)
- LISA sensitivity (schematic)
- PTA band
- LISA band
- PTA (official KDE→CSV)

x-axis: frequency [Hz]
y-axis: characteristic strain h_c

Note: LISA curve shown as a schematic sensitivity envelope; use official LISA performance for publication plots.
